

# Committed. For 125 Years.

At Mount Carmel, our values are what made us who we are today. And chief among them is commitment. A commitment to exceptional care, which you'll find in our nationally recognized orthopedic program and robotic surgery suites. A commitment to compassion, like you'll see every day in our Outreach programs serving the uninsured and working poor. A commitment to community, which led us to create the first free-standing emergency department in central Ohio. After 125 years, we're still committed to care, compassion and community. And always will be. [mountcarmelhealth.com](http://mountcarmelhealth.com)
