Wednesday, August 5, 6-8 p.m.
Wednesday, August 19, 6-9 p.m.

To register, call 614-234-LIFE.

Jeremy – Lost 256 Pounds

At 511 pounds, Jeremy felt more than social stigma. He felt the gravity of his mounting health problems. With the help of bariatric surgery, he didn't just reclaim his health. He got a new lease on life.

At the Mount Carmel Bariatric Center, we offer more than surgical weight loss. We offer hope. Our bariatric surgery program offers Rouxen-Y gastric bypass and gastric banding procedures, including single-incision gastric banding. In addition, it is designated as a Center of Excellence by the American Society for Metabolic and Bariatric Surgery. But it's as much about support as it is about success. With over 30 years of combined experience, our board-certified physicians will give you the tools you need not just for a smaller physique, but a whole new healthier you.
