

— MOUNT CARMEL. —
THE FUTURE IS NOW.

LEADERSHIP. In healthcare it's pursuing and utilizing the most advanced technologies and procedures available. It's producing heart care outcomes that earn you a spot on the Thomson Reuters 50 Top Cardiovascular Hospitals list six times. It's performing more joint replacement procedures than any other healthcare system in Columbus. It's continually adding state-of-the-art facilities to serve growing needs in growing communities. ■ Leadership isn't waiting. It's innovating. And that's what Mount Carmel is doing now. And what we'll be doing in 2020. And every year in between.
